Dear sir/madam.

RE: APPLICATION FOR DATA SCIENCE INTERNSHIP

I humbly take this opportunity to present my application concerning the aforementioned subject matter. I am in my final year in Jomo Kenyatta University of Agriculture and Technology pursuing bachelor's degree in pure and applied mathematics.

I have also experience in Data science through multiple projects, courses and training I have attended which place me at a better position for the position. I'll be grateful if you consider my request so that I can be part of the data science team in your institution.

I promise to deliver my services to you with all my effort, aptitude and diligence in any position that I will be placed.

Yours faithfully,

Elvis David
